FEATURES

Semiconductor Cooling Plate

Powered by an advanced semiconductor cooling chip, this mode generates a stream of chilled air for immediate relief. Perfect for refreshing yourself or soothing heat discomfort on hot days.

Ultrasonic Mosquito Repellent

Emits high-frequency ultrasonic waves that repel mosquitoes, creating a protective and chemical-free comfort zone wherever you go.

100-Speed Precision Control

With an ultra-wide range from a gentle breeze to a powerful gust, the 100-speed precision control offers smooth and fine-tuned airflow adjustment, delivering personalized comfort for any situation.

Smart Digital LED Display

The built-in LED display presents real-time information on battery level, speed setting, and active modes such as cooling or mosquito repellent, giving you effortless visibility and control.

FEATURES

Rechargeable Battery

Built-in 3500mAh rechargeable battery which can support cordless operation without power supply after fully charged.

Portable Lanyard Design

Comes with a lanyard that allows for easy carrying and hands-free convenience, making it ideal for outdoor activities, travel, or daily use.

5V Type-C USB Interface

Equipped with a 5V Type-C charging port for fast and efficient power delivery, ensuring universal compatibility and convenient recharging anytime, anywhere.

Lightweight & Portable

Weighing only 230 g, this sleek handheld fan is easy to carry and fits comfortably in your hand, bag, or backpack, making it perfect for travel, commuting, or outdoor use.

Your Personal Cooling Partner

For a refreshing breeze anytime, anywhere

Commuting

Traveling
